

United States Marine Corps Will Go With Pershing To France

First Line Fighting "Soldiers Of The Sea," Who Have Made History In Every War, Ordered To Front

\$500,000,000 PROVIDED FOR TRANSPORTS

Washington May 19.—A regiment of marines of about 2,600 men under command of Col. Charles A. Doyen of the Washington Barracks will accompany the first American army expedition through France. The regiment will be composed principally of organizations which have recently seen active service in Haiti, San Domingo and Cuba, according to an official announcement today by the navy department. They will be armed, equipped and organized similar to the armies with which they will serve.

Col. Doyen will be under command of Major General Pershing and the marines with him will serve as soldiers in the trenches of France. Doyen is now in command of the Washington marine barracks and president of the examining and retiring board of the naval corps.

He has seen real fighting service having been in command of the battleship Hancock in the Dominican waters in 1914. Doyen has also seen many years service in the Philippines. Reports from the war department today showed that two of the nine regiments of engineers for French service had been raised and that in the Pittsburgh district more men have applied than could be accepted. The recruiting elsewhere is going satisfactory it was said.

The House conferees favored the raising of the navy from 87,000 to 150,000 men and the marine corps from 17,400 to 30,000. The bill also increased the salary so that the enlisted men in the trenches will receive \$30.00 a month. The same amount of pay as the enlisted men will receive under the selective service bill.

Washington May 19.—The divisions of the National Guard was announced today. The National Guard from 12 of the middle and northern states will be sent to the southern department in camps along the border. The New England, and Atlantic states to the southeastern department. The states and their departments are as follows:

- Fifth division Vermont, New Hampshire, Massachusetts, Maine, R. I. and Connecticut—southern department.
- Sixth division New York—southeastern department.
- Seventh division Pennsylvania—southeastern department.
- Eighth division Virginia, Maryland, New Jersey, Delaware, District of Columbia—southeastern department.

The central and northern states will be sent to the southern department to escape the inclement weather of the north and at the same time will do patrol duty on the border to replace the regulars which will go with Pershing's command. It was announced by the war department that the identity of the National guard will be preserved as far as possible.

Washington, May 19.—The Senate today adopted the drastic shipping section of the war budget bill authorizing President Wilson to spend \$500,000,000 immediately in the construction of vessels for use in the war. The bill empowers the President to make contracts, fix prices and if necessary commandeering plants engaged in the construction of vessels or parts thereof.

Hyde City Austrian Tramples Old Glory

Arrested By Sheriff McCloskey And Will Be Sent To "Pen"

Steve Haversock, a naturalized Austrian living with his family at Hyde City was taken into custody by Sheriff McCloskey and Deputy Chaplin this afternoon on a charge of tearing up an American flag and trampling it under his feet.

The alleged desecration of the flag took place in front of the Haversock home yesterday according to Mrs. Gracie, Mrs. Baney and Roy Lawhead. It is alleged that when Mrs. Gracie patriotically attempted to rescue the flag, the prisoner threw a hatchet at her and she was forced to flee from the scene.

District Attorney Welch immediately had an information made against Haversock and if the facts as alleged are shown at the hearing this gentleman will spend the next year of his life in the penitentiary at Pittsburgh.

CHILDREN LEGALLY ADOPTED

The little Provingano children who were surrendered to Probation Officer Stock by their unnatural mother at Hyndale yesterday were legally adopted by a couple of respectable Clearfield county Italian families yesterday and the adoption papers placed on record in the Prothonotary's office this morning. Much of the credit for this happy solution of a vexing problem was due to the intelligent efforts of Samuel Toney, of Third street one of the leaders of the Italian people in our county.

NOTICE

The Junior Auxiliary of the hospital will meet at the home of Mrs. J. Lewis Irwin on Saturday afternoon at 3:30.

MEMORIAL DAY

Harrisburg, May 19.—May 30 was formally proclaimed as the annual memorial day today by Governor Brumbaugh. He asked full observance of the five minute period at noon. "In this year when by the acts of others and not by the acts of our own people we find ourselves in a great war it is peculiarly fitting that we should rekindle our camp fires and rededicate our lives and reconsecrate ourselves to the nation whose heroes in former wars gave such bountiful loyalty. * * * Let the lofty sentiments of our fealty be uttered in our churches, and our schools, and our homes and at the graves of those glorious and enshrined heroes. Let all bells be tolled from 12:00 to 12:05; let all flags be at half mast and let all people stand with heads bared in solemn, silent tribute."

BRAZIL WITH U. S. A.

Rio De Janeiro, May 19.—Brazil has informed her South American neighbors that she is unable to participate in the Buenos Ayres Latin-American neutrality conference according to reliable information today. It was stated that President Braz advised other Republics that Brazil was "unofficially allied with the United States and therefore did not consider herself entirely neutral." One other reason is that Brazil is sending a military commission to Europe.

SHOT BY GUARD

Philadelphia, May 19.—John Logue, aged 42 was shot and killed today by Private Bernard O'Connell of the First Pa. Infantry.

This is the fourth fatality in this unit in two weeks. According to the officers Logue was intoxicated and tried to take O'Connell's gun away from him. O'Connell, a boy in his teens, is a new member of the regiment and was on guard duty at the Schuylkill arsenal.

High Cost Of Living Has No Terrors Here

Will be Given Five Acres for Potatoes And Beans

Charles T. Kurtz has the right idea of solving the high cost of living and being in position to fully realize on that idea notified the employees of his factory on Reed street to go out to the Kurtz farm on Clearfield creek and pick out all the ground they could properly take care of during the summer and he would have same put in shape for planting and they could have whatever was produced on same when harvest time arrived.

Accordingly a committee headed by Foreman Miller visited the farm on Thursday night and picked out a five acre piece down near Golden Rod camp and arranged with farmer Russell Jay to get same in shape for the planting at once. When the committee reported at the factory yesterday morning an executive session was held at which it was decided to put three acres in potatoes and divide the other two between beans and buckwheat.

The garden will be worked in shifts, the employees being divided up into groups and each group to be assigned a particular day in the week when it will be their duty to work the garden or truck patch. Farmer Jay will act as umpire or general superintendent whose duty it will be to keep tab on the different crews and see that they do their full share of the program mapped out for them. A system of demerits will be worked out and when a worker fails to do his duty a demerit will be returned to the secretary of the employees gardening association who will enter same on the books of the association and when harvest time arrives and the yield is to be divided this demerit or charges will be counted up and the number or quantity thereof deducted from the "slackers" share of the proceeds.

Everybody about the factory is enthusiastic over the project and if this garden patch is not the scene of some highly intensive farming the coming three months we miss our guess.

Mr. Kurtz is certainly showing the commendable spirit in this matter and if more employers were as thoughtful the high cost of living would not be such a bugaboo just now.

WILL SEARCH AGAIN SUNDAY

Rockton people are arranging for another organized search for little Arthur Caldwell, who is supposed to have succumbed to exposure while lost in the woods near his home.

A crowd of DuBois searchers will again assist in scouring the woods in the vicinity of where the little fellow was last seen alive and a number of Clearfielders are also making arrangements to go over and assist.

It is expected that several automobile loads will go from Clearfield tomorrow morning.

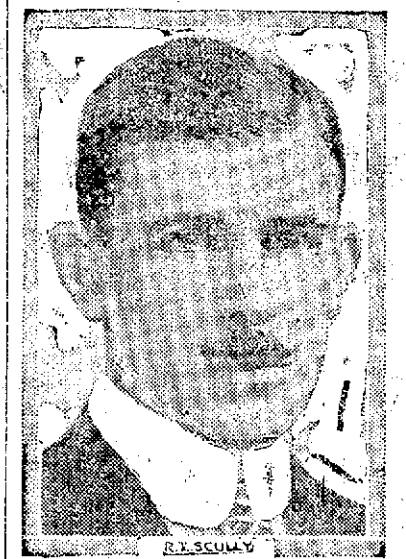

WOODCRAFT MEETING

All members of the Woodcraft League are urged to be present at the meeting on Tuesday evening May 22 at 7:15 o'clock. Special business will be attended to and it will be the last meeting which the League can attend.

NOTICE

We want a number of the issues of The Progress dated April 27th. Will pay two cents each for them.

CARRIES FIRST AMERICAN FLAG THROUGH PARIS

When R. T. Scully, of Pittsburgh, and Edward Tinkham, of Montclair, N. J., led an American contingent of sixty men through Paris streets the other day, bearing the American flag before them, the city went wild. They were the first detachment of the newly created munitions transport branch of the American ambulance corps.

JUNIOR PLAY A SUCCESS

The Junior Class Play "What Happened to Jones" was given last evening in the auditorium of the new High School before a large and appreciative audience under the direction of Miss Maud Latham, teacher of English.

The play, "What Happened to Jones" and the circumstances were perplexing and also clever although all was straightened out in the end. Humor and wit were the predominating features. Each character was eminently fitted to the part to which he or she had been assigned and each one displayed exceptional talent and ability. Much credit and praise is due their instructor, Miss Maud Latham and the participants in the play.

SLIGHT AUTO SMASHUP

The jitney and an automobile driven by Ashley Woolbridge of Woodland collided at the lower end of Daisy street this morning and, while the rear end of the jitney and the front end of the auto were smashed up, some of the drivers and other occupants of the vehicles escaped injury.

The accident occurred at 7:45 o'clock in front of the home of Joseph Yanarro, just beyond the borough line. Driver Poole was turning his jitney and backed right into the automobile which was being driven into town from Woodland by Mr. Woolbridge.

CAPT. AYERS WILL TALK AT "Y"

Capt. Ayers, Company L, 18th Regiment, N. G. P. will talk to the members of the Clearfield Boy Patriots, Monday evening at 7:30 o'clock. All the boys are urged to be present as Capt. Ayers will have something good to tell them.

WILL RAISE A FLAG

A sixty foot flag pole has been erected at the E. R. & P. station at Market street and a handsome American flag 12x20 feet in size will be flying to the breeze therefrom Monday morning.

Conscription Act Now A Law Roosevelt Division Not Wanted June 5th Made Registration Day

The war department decided last Friday a week ago to send General Pershing and a division of approximately 25,000 men to France and The Progress has been in possession of the information since that day. However, in the interest of safety to our government, The Progress in common with other newspapers refrained from publishing the information until the plans were fully matured. When the French Commission landed on American soil we were in possession of the information but for the same reason no paper published the information until two days later in order that they might safely make their journey to Washington. We cite these instances for two reasons. First as an illustration that The Progress is getting the news at first hand and second that no censorship is required to have the newspapers fully cooperate with the government in the furtherance of war preparations.

Banks Will Supply Seed Potatoes Soon

Those Desiring Same Must Apply In Writing to Any Local Bank

The people of Clearfield and vicinity will be enabled to secure a limited supply of seed potatoes early next week, thanks to the efforts of the Clearfield Bankers' Association.

When the shortage in seed potatoes was brought to the notice of the Clearfield banks they got busy and through their association immediately attempted to secure a supply sufficient to cover the local demand. It proved to be an arduous task, however, as seed potatoes appear to be even scarcer than the proverbial hen's teeth. It was expected that at least one car load could be secured, but this was found to be impossible and the banks have been able to secure only 260 bushels of the prized seed.

These potatoes will arrive in Clearfield some day next week and all who desire to secure a portion of same should make application to either the County National, Clearfield National or Clearfield Trust Company at once and when the seed arrives, the same will be apportioned to the different applicants in the quantities desired or as near to that amount as the supply and demand will make possible.

Remember that all who want share of these seed potatoes should make application to either of the three local banks at once and same will be filed and filled just as soon as the potatoes arrive. The price for same will be fixed at about \$3.00 per bushel.

REV. McCURDY WILL PREACH

Rev. John P. McCurdy will preach at both the morning and evening services in the Baptist church tomorrow.

Gen. "Black Jack" Pershing Will Command 25,000 Regular Army Troops In France Within Short Time

NATIONAL GUARD FOR FEDERAL SERVICE

President Wilson last night signed the army bill under which, with other measures, an army of 1,000,000 trained men will be sent to the front in France in a year.

In a formal statement Mr. Wilson rejected the Roosevelt division and gave his reasons. Soon after this the President announced that he had ordered a division of 25,000 regulars to go to the French front as soon as possible. Major General John J. Pershing will command. General Pershing and his staff will precede his forces to the other side.

Mr. Wilson also issued a proclamation fixing June 5 as the day on which 10,200,000 men of the United States between the ages of 21 and 31 must register for the federal service. An army of 500,000 will be selected from this number immediately for training. The entire national guard will be mustered into the federal service by August 5. The Pennsylvania militiamen will be ordered out on July 15 and sent south for a month or six weeks of intensive training after which they will be sent to France, probably in September.

Washington, D. C., May 18 — An ideal soldier, in the opinion of every man with whom he has come in contact during his long and brilliant career in the United States army, is Major General John J. Pershing, whom rumor says is most likely to have the immeasurable good fortune to be selected as commander of the first American army to be sent to France.

Ever since he came out of West Point in 1886 as a senior cadet captain the highest honor there, General Pershing has been living and fighting battles that fit him preeminently for the highest honors in the service. He was ten years in the southwest, fighting Geronimo and his Apaches. He was in the Spanish war with a negro regiment, and was called by his colonel the bravest and coolest man under fire he had ever seen, and he accomplished the extraordinarily difficult task of subjugating the Moros in the Philippines.

It was for all these things probably but chiefly for his work in the Philippines, that President Roosevelt, in 1906 promoted Captain Pershing to the rank of Brigadier-General, jumping him over the heads of 362 other officers—the record jump in the history of the army.

General Pershing is fifty-seven years old and a native of Missouri. After leaving West Point academy he entered the cavalry service, and in that arm he has done much of his most brilliant and enduring work. During his service in the Philippines he had to undergo tests, military and administrative, that proved him a superior officer. For his distinguished services in his fights against the Moros in the Lake Hano country he was singled out for praise by the President in one of his messages to congress. There, his senior officer being incapacitated, the command of a battalion devolved upon him. Captain Pershing was away from civilization and almost cut off from communication with the outside world. For seven months he kept open his base of operations, supplied his own subsistence and, with his men fought every day and part of the night. He started at the lower end of the lake and fought clear around its circumference, exterminating hostile natives or making peace with their chiefs.

General Mac Arthur, then in command of the Philippines, recommended him for promotion to brigadier-general as the only recognition commensurate with his actual services. Under the law President Roosevelt could not have bestowed the rank of colonel upon Captain Pershing, so the President gave him the record promotion.

When the army forces were stationed on the Mexican border by President Taft, General Pershing was immediately ordered from San Francisco to the front, and when, following the attack on Columbus, N. M., by Villa, General Pershing was assigned to the task.

In 1905 General Pershing was married to the daughter of United States Senator Frances E. Warren of Wyoming. On August 27, 1915, Mrs. Pershing and three of their little children were burned to death in the fire at the Presidio in San Francisco.

The selection of General Pershing to command the first American army ever to set foot on the soil of Europe would please his country, for he is a favorite with those who know him, and also with those who have only newspapers and periodicals as informants. His whole record stamps him as a soldier well qualified to carry out any military task to which he may be assigned. Moreover, there is a combination of efficiency and picturesqueness about his mode of working that pleases.

Big Coal Operation Near Borough Limits

Boyer Brothers Will Open Mines Near Borough Line

A deal was closed yesterday which will mean the developing of a large coal territory immediately adjacent to Clearfield, which has long lain dormant or idle, with the exception of a few country mines, largely because little if any effort was made by the owners to get an opening through to the railroad for the thousands of acres of finest coal underlying a block of hundreds of acres in this region.

The deal we have reference to was that consummated by W. M. and John Boyce who purchased the old Humphrey farm from M. O. Watts and the G. G. Irwin farm immediately adjoining. These farms besides being most advantageously located right on the edge of Clearfield borough are also underlain with fine veins of the very best coal to be found in this region, and it is the intention of Boyce Brothers to begin the operation of this coal on a large scale.

The principal body of coal is under the Irwin farm, but in order to properly mine and remove this coal it was necessary to have an opening on the adjoining land hence the purchase of the Humphrey place. In addition to the removal of the coal from under the 115 acres of this purchase this operation will be means of getting at and opening the large body of coal generally owned by Dr. S. C. Stewart, R. H. Thompson and other Clearfield people and will mean an operation of large proportions before very long.

"The Boyce coal will be operated at once and if present plans mature we are informed a branch or spur of narrow gauge railroad will be built in connection with the Whitmer Steel lumber road and the coal hauled to the E. R. & P. siding near the Patterson Brick Works.

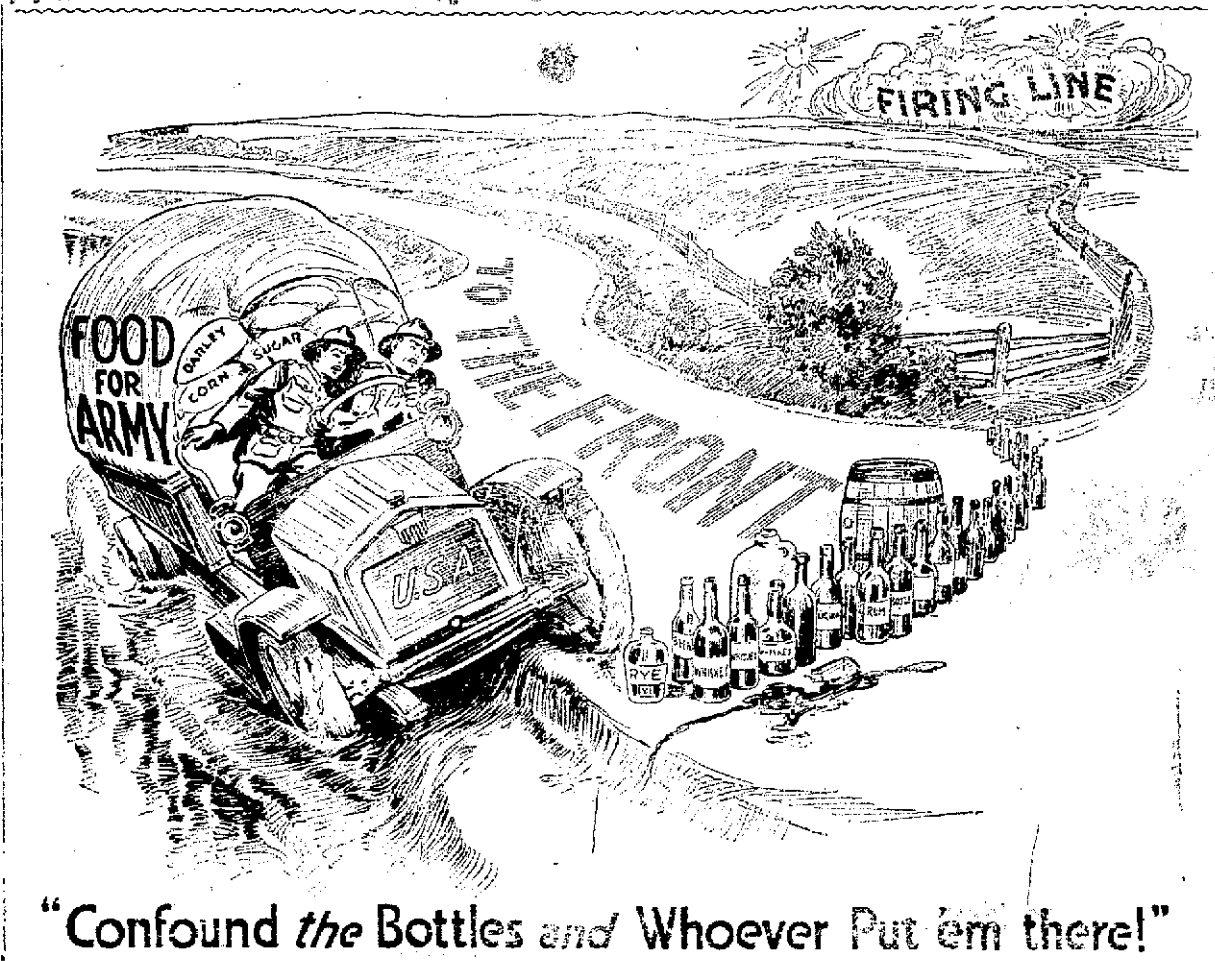

In addition to the removal of the coal Boyce Brothers propose to farm the surface of both farms and as the Irwin farm especially is one of the best in this section they will no doubt garner bumper crops as well.

GOVERNOR TO FIX FOR DRAFT

Call Sheriffs and Mayors to Help Him Lay Plans

Harrisburg, May 18.—Governor Brumbaugh today announced that he would call the Sheriffs of all counties of the state and the Mayors of all cities in Pennsylvania having over 10,000 population for a conference next Tuesday afternoon at 1 o'clock, to discuss plans for registration under the selective draft act.

"This meeting will be held at the Capitol, so that we can have a conference and detailed in the United States methods to be used in the registration for conscription," said the governor.

"Confound the Bottles and Whoever Put 'em there!"

FOLLOW SPUDS WITH BEANS

Planting beans as a second crop to follow early potatoes is the plan suggested to Governor Harding by J. K. Norris who has followed the practice for University Park, Mahaska county. Mr. Norris has followed the practice for years on his farm and vouches for its success.

"I raise a bean crop on my potato ground every year," he writes. "I tell you when I was in the war of the rebellion a good dish of beans helped as much as any food we could get. The last of June is the time to plant them, after the fly is gone that stings them and causes them to become wormy."

The experiment truck crops man at Iowa State college suggests that even if beans are not planted as a second crop, they could not be put in the ground sooner than June 7. "Plant pea or soup beans, as they mature better in Iowa. Select a light, sandy and not a rich soil. Newly turned sod ground is good. Break the ground soon and keep it harrowed to kill the weeds. Plant 2 pecks to the acre. If hand planted, place them in rows 28 inches apart, 11 1/2 inches apart in the row and 2 inches deep. A new circular on bean growing is now available from the agricultural extension department, Ames, Iowa.

WILSON'S DISPOSAL OF T. R.

The spectacle of an ex-President of the United States being refused permission to raise an army and thereby "do his bit" towards the protection of the nation he has served so long and well is not a little humiliating. In the Spanish-American war most anybody who could muster a Corporal's guard was given shoulder straps. Just why Theodore Roosevelt was held down was not explained until a chain of circumstances had been forged which changed conditions in such a manner that even Teddy's most staunch supporters must today admit that the action taken by President Wilson last night was right.

Under existing conditions, President Wilson is justified in his statement that "to accept the offer of Roosevelt would defeat the very purpose of selective service legislation," but we cannot wholly indorse the action of the President for the reason that there was a time, and that only three or four weeks ago, when the government could have accepted T. R.'s offer without any harm to conscription laws but rather a decided impetus to volunteer recruiting. The administration has been very busy so shaping their program that Mr. Roosevelt's offer could be discounted and disregarded in the interest of the administration plan for selective conscription.

The President's action last night was the right one considering the conscription law but his action was the outgrowth of carefully laid Democratic administration plans for the discarding of the greatest exponent of red blooded Americanism.

IN MEMORIAM

Resolution of respect of Mt. Joy Grange No. 684 on the death of Brother Charles Owens, who died on May 1st, 1917.

Whereas, God in His wise Providence has again so soon entered our Grange and called from our midst our Brother Charles Owens, Therefore, be it,

Resolved, That we bow in humble submission to Him who doeth all things well, and that we tender our heartfelt sympathies to the bereaved parents and family and commend them to the Heavenly Father.

Resolved, That our charter be draped in mourning for thirty days, and that a copy be entered on the minutes of the Grange and a copy be sent to

the family, one to the Grange News and one to each of the county papers.

WILL CELEBRATE 90th BIRTHDAY

John H. Martin left today for Bellefonte where he will visit his mother, Mrs. Elizabeth Martin who will celebrate the ninetieth anniversary of her birth tomorrow. Mrs. Martin is a remarkable old lady and is just as hale and hearty now as in former years when she was a Clearfield resident.

Learn to be Thrifty

We Americans are the most extravagant people in the world, due in large part to the natural richness of this country.

Under present conditions it is essential for us to be thrifty. It is hard at first. It means cutting out unnecessary expenses. It means learning to say "no" to the appeal of extravagance. But like all habits, Thrift soon becomes second nature.

Thrift is not miserliness. It provides for all proper expenses. It lays aside money for education, for travel, for the finer things of life. It teaches us how to spend as well as save.

Let us advise you on learning the Thrift Habit.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat also take glass of Salts before eating breakfast

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water, also get from any pharmacy four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

ON THE SCREEN

"THE AMERICANO"

The Tent Monday Night

Douglas Fairbanks is said to have in "The Americano" a play of strong or dramatic value than any in which he has yet appeared on the Triangle program. It has to do with the ad-

ventures of a young American mining engineer in a South American republic which has just been upset by a revolution.

Alma Reuben appears as leading woman for Douglas Fairbanks in the new Triangle feature, "The Americano." Miss Reuben appeared in support of Fairbanks in "The Half Breed" and has also played opposite William S. Hart. She is of the Spanish type and particularly fitted to the role she has in the new piece.

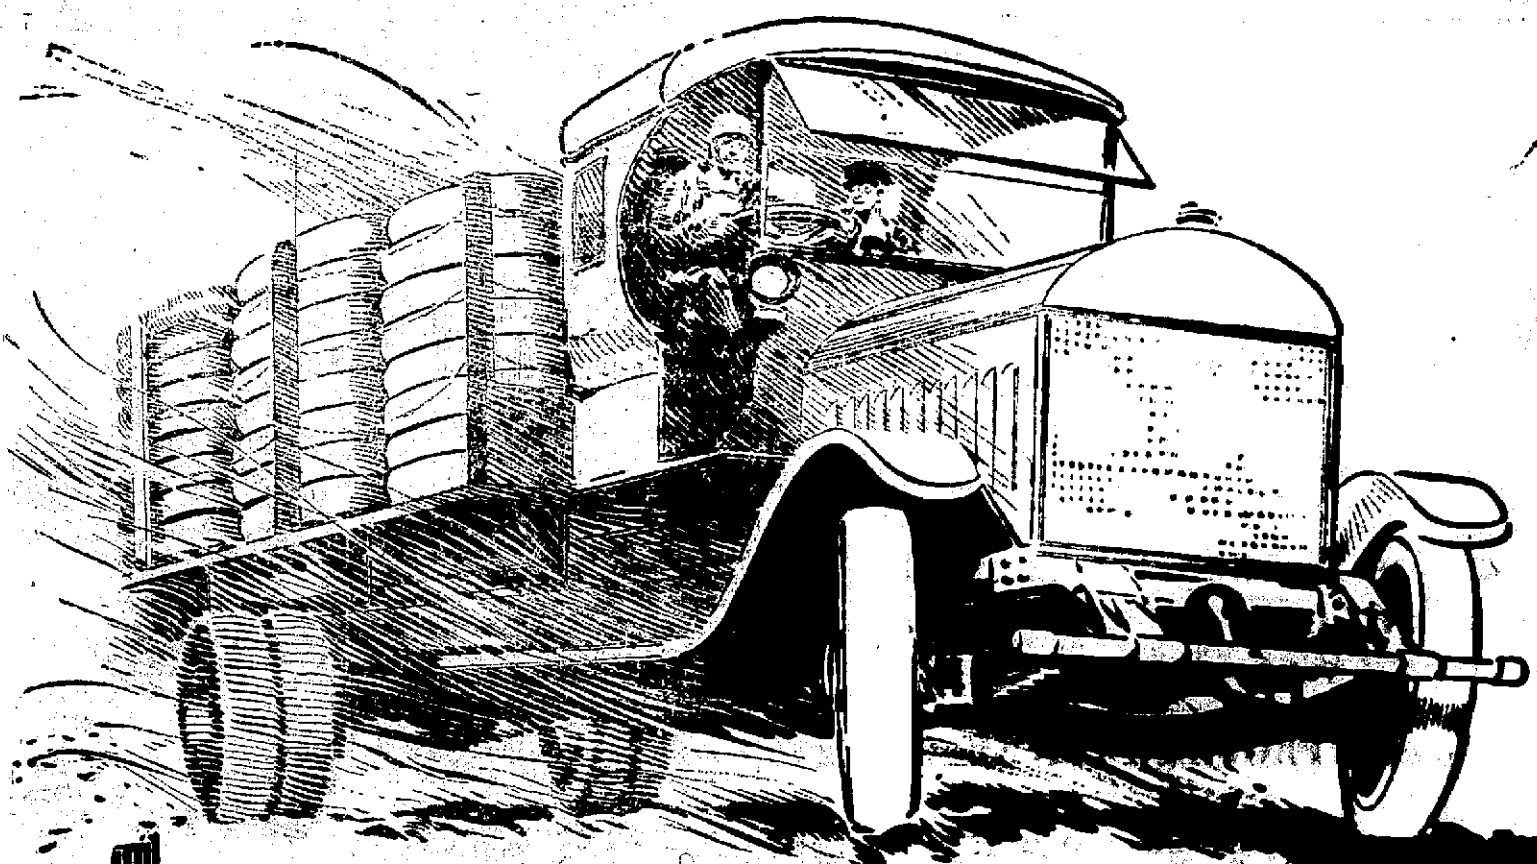

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glass of hot water before breakfast to wash out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best day in and day out, just try inside bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowel the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

JUST IN!

Big New Shipment of Ajax Tires

WE'VE just received a record shipment of Ajax Registered Tires in fresh and fine condition—the best goods on the market. This shipment—made at a time when there is an expected shortage of tires—demonstrates how we protect our buyers' interests.

We are abundantly able to take care of your requirements. Why not come in and learn for yourself more about the Ajax Quality Proposition?

Every Ajax Tire is registered in the individual tire owner's name at the factory—a double insurance of service that means saving.

We are proud to handle Ajax—glad to add our service insurance to the maker's own. Our latch-string is out.

For Decree of Dissolution of Said
Corporation.

Notice is hereby given that BEAVER BRANCH COAL COMPANY has filed in the above court its petition for a Decree of Dissolution, and that the Court has fixed the 28th day of May, A. D. 1917, at 10 o'clock A. M., as the time and the said Court as the place for hearing said petition and application for dissolution, when and where all persons interested can attend and show cause, if any they have, why the prayer of the said petition should not be granted.

ARTHUR G. DICKSON
Solicitor for Petitioner

DEAR ENEMY

By Jean Webster

Author of "Daddy-Long-Legs"

Like "Daddy-Long-Legs" this is a story told in letters—equally as appealing and unforgettable.

How Sally McBride is persuaded by her good friends, Jervis and Judy Pendleton to assume charge of an orphan asylum and how she succeeds is all told in her delightful letters to the Pendletons, to Gordon Hallock and to Dr. Rablin Robbin MacRae, the "Dear Enemy" of the title.

This is an exceptional opportunity for those who desired this quaint little book when it first appeared at the copyrighted price. We are now selling it at

THE SMITH MOTOR TRUCK

In the exhibits of the Smith Corporation at the recent Used Car Show in Chicago, visitors were able to see in actual form that which A. D. Smith visualized in his mind five years ago in a small shop in Seattle. He commenced his activities with the aid of a few tools and a second hand Ford. The results was a crude appearing chassis which proved its ability to carry a ton load, which satisfied Mr. Smith that he had opened a wide field. The standardized attachment which was shown at the exhibit is sufficient proof of the practicability of Mr. Smith's conception, and marks the tremendous strides made in the perfecting of the attachment since its inauspicious beginning. From its start in the small one-room building in Seattle, the industry has grown to such an extent that a mammoth plant at Clearing, Illinois, has been constructed. Thousands are employed there and already there have been several additions in order to keep pace with the unprecedented growth of the Smith Motor Truck Corporation.

From one desk in the front of Seattle establishment, the clerical phase of the business has developed to such an extent that a six story building is now necessary to accommodate it. The new home of the rapidly growing concern is on Michigan Avenue at Sixteenth street, in the six story building formerly occupied by the Goodyear people.

The instruments on an aeroplane usually include an altimeter, for indicating the height; clock, compass; revolution indicator, indicating the air speed of the aeroplane, and petrol and oil gauges, indicating the amount of fuel in the tanks.

A bomb dropped from a Zeppelin at a height of 8,000 feet, while the airship is traveling at full speed, would strike the ground at not less than three eighths of a mile in front of the spot over which the Zeppelin was at that moment traveling.

CHICAGO BANDITS AGAIN

Chicago, May 19.—Two men were shot and two others badly beaten by five automobile bandits today who held up three men at the Racine street exit of the Metropolitan Elevated and escaped with the \$7,000 pay roll of the Steine Garter Company.

PAIGE

The Most Beautiful Car in America

YOU may be one of the thousands of people who have planned to buy a Paige Linwood "Six-39" this spring. If so, let us suggest that you place your order immediately.

There is a tremendous demand for these beautiful five-passenger models. Orders are pouring into the factory from all sections of the country, and it is a foregone conclusion that our "Linwood" production will fall far short of the demand.

Then, also, remember that the cost of manufacturing materials is steadily advancing. Each day it becomes more difficult—and consequently more expensive—to secure the steel, aluminum, copper and brass that are found in a car like the "Linwood."

Right now, you can buy one of these cars for \$1175. If you delay the matter too long, you may have to pay considerably more. Or, as we said in the beginning, it may be impossible to secure early delivery on a Linwood at any price.

Stratford	"Six-31" seven-passenger, \$1495 f. o. b. Detroit
Fairfield	"Six-46" seven-passenger, \$1375 f. o. b. Detroit

United States Marine Corps Will Go With Pershing To France

First Line Fighting "Soldiers Of The Sea," Who Have Made History In Every War, Ordered To Front

\$500,000,000 PROVIDED FOR TRANSPORTS

Washington May 19.—A regiment of marines of about 2,600 men under command of Col. Charles A. Doyen of the Washington Barracks will accompany the first American army expedition through France. The regiment will be composed principally of organizations which have recently seen active service in Haiti, San Domingo and Cuba, according to an official announcement today by the navy department. They will be armed, equipped and organized similar to the armies with which they will serve.

Col. Doyen will be under command of Major General Pershing and the marines with him will serve as soldiers in the trenches of France. Doyen is now in command of the Washington marine barracks and president of the examining and retiring board of the naval corps.

He has seen real fighting service having been in command of the battleship Hancock in the Dominican waters in 1914. Doyen has also seen many years service in the Philippines. Reports from the war department today showed that two of the nine regiments of engineers for French service had been raised and that in the Pittsburgh district more men have applied than could be accepted. The recruiting elsewhere is going satisfactory it was said.

The House conferees favored the raising of the navy from 87,000 to 150,000 men and the marine corps from 17,400 to 30,000. The bill also increased the salary so that the enlisted men in the trenches will receive \$30.00 a month. The same amount of pay as the enlisted men will receive under the selective service bill.

Washington May 19.—The divisions of the National Guard was announced today. The National Guard from 12 of the middle and northern states will be sent to the southern department in camps along the border. The New England, and Atlantic states to the southeastern department. The states and their departments are as follows:

- Fifth division Vermont, New Hampshire, Massachusetts, Maine, R. I. and Connecticut—southern department.
- Sixth division New York—southeastern department.
- Seventh division Pennsylvania—southeastern department.
- Eighth division Virginia, Maryland, New Jersey, Delaware, District of Columbia—southeastern department.

The central and northern states will be sent to the southern department to escape the inclement weather of the north and at the same time will do patrol duty on the border to replace the regulars which will go with Pershing's command. It was announced by the war department that the identity of the National guard will be preserved as far as possible.

Washington, May 19.—The Senate today adopted the drastic shipping section of the war budget bill authorizing President Wilson to spend \$500,000,000 immediately in the construction of vessels for use in the war. The bill empowers the President to make contracts, fix prices and if necessary commandeering plants engaged in the construction of vessels or parts thereof.

Hyde City Austrian Tramples Old Glory

Arrested By Sheriff McCloskey And Will Be Sent To "Pen"

Steve Haversock, a naturalized Austrian living with his family at Hyde City was taken into custody by Sheriff McCloskey and Deputy Chaplin this afternoon on a charge of tearing up an American flag and trampling it under his feet.

The alleged desecration of the flag took place in front of the Haversock home yesterday according to Mrs. Gracie, Mrs. Baney and Roy Lawhead. It is alleged that when Mrs. Gracie patriotically attempted to rescue the flag, the prisoner threw a hatchet at her and she was forced to flee from the scene.

District Attorney Welch immediately had an information made against Haversock and if the facts as alleged are shown at the hearing this gentleman will spend the next year of his life in the penitentiary at Pittsburgh.

CHILDREN LEGALLY ADOPTED

The little Provingano children who were surrendered to Probation Officer Stock by their unnatural mother at Hyndale yesterday were legally adopted by a couple of respectable Clearfield county Italian families yesterday and the adoption papers placed on record in the Prothonotary's office this morning. Much of the credit for this happy solution of a vexing problem was due to the intelligent efforts of Samuel Toney, of Third street one of the leaders of the Italian people in our county.

NOTICE

The Junior Auxiliary of the hospital will meet at the home of Mrs. J. Lewis Irwin on Saturday afternoon at 3:30.

MEMORIAL DAY

Harrisburg, May 19.—May 30 was formally proclaimed as the annual memorial day today by Governor Brumbaugh. He asked full observance of the five minute period at noon. "In this year when by the acts of others and not by the acts of our own people we find ourselves in a great war it is peculiarly fitting that we should rekindle our camp fires and rededicate our lives and reconsecrate ourselves to the nation whose heroes in former wars gave such bountiful loyalty. * * * Let the lofty sentiments of our fealty be uttered in our churches, and our schools, and our homes and at the graves of those glorious and enshrined heroes. Let all bells be tolled from 12:00 to 12:05; let all flags be at half mast and let all people stand with heads bared in solemn, silent tribute."

BRAZIL WITH U. S. A.

Rio De Janeiro, May 19.—Brazil has informed her South American neighbors that she is unable to participate in the Buenos Ayres Latin-American neutrality conference according to reliable information today. It was stated that President Braz advised other Republics that Brazil was "unofficially allied with the United States and therefore did not consider herself entirely neutral." One other reason is that Brazil is sending a military commission to Europe.

SHOT BY GUARD

Philadelphia, May 19.—John Logue, aged 42 was shot and killed today by Private Bernard O'Connell of the First Pa. Infantry.

This is the fourth fatality in this unit in two weeks. According to the officers Logue was intoxicated and tried to take O'Connell's gun away from him. O'Connell, a boy in his teens, is a new member of the regiment and was on guard duty at the Schuylkill arsenal.

High Cost Of Living Has No Terrors Here

Will be Given Five Acres for Potatoes And Beans

Charles T. Kurtz has the right idea of solving the high cost of living and being in position to fully realize on that idea notified the employees of his factory on Reed street to go out to the Kurtz farm on Clearfield creek and pick out all the ground they could properly take care of during the summer and he would have same put in shape for planting and they could have whatever was produced on same when harvest time arrived.

Accordingly a committee headed by Foreman Miller visited the farm on Thursday night and picked out a five acre piece down near Golden Rod camp and arranged with farmer Russell Jay to get same in shape for the planting at once. When the committee reported at the factory yesterday morning an executive session was held at which it was decided to put three acres in potatoes and divide the other two between beans and buckwheat.

The garden will be worked in shifts, the employees being divided up into groups and each group to be assigned a particular day in the week when it will be their duty to work the garden or truck patch. Farmer Jay will act as umpire or general superintendent whose duty it will be to keep tab on the different crews and see that they do their full share of the program mapped out for them. A system of demerits will be worked out and when a worker fails to do his duty a demerit will be returned to the secretary of the employees gardening association who will enter same on the books of the association and when harvest time arrives and the yield is to be divided this demerit or charges will be counted up and the number or quantity thereof deducted from the "slackers" share of the proceeds.

Everybody about the factory is enthusiastic over the project and if this garden patch is not the scene of some highly intensive farming the coming three months we miss our guess.

Mr. Kurtz is certainly showing the commendable spirit in this matter and if more employers were as thoughtful the high cost of living would not be such a bugaboo just now.

WILL SEARCH AGAIN SUNDAY

Rockton people are arranging for another organized search for little Arthur Caldwell, who is supposed to have succumbed to exposure while lost in the woods near his home.

A crowd of DuBois searchers will again assist in scouring the woods in the vicinity of where the little fellow was last seen alive and a number of Clearfielders are also making arrangements to go over and assist.

It is expected that several automobile loads will go from Clearfield tomorrow morning.

WOODCRAFT MEETING

All members of the Woodcraft League are urged to be present at the meeting on Tuesday evening May 22 at 7:15 o'clock. Special business will be attended to and it will be the last meeting which the League can attend.

NOTICE

We want a number of the issues of The Progress dated April 27th. Will pay two cents each for them.

CARRIES FIRST AMERICAN FLAG THROUGH PARIS

When R. T. Scully, of Pittsburgh, and Edward Tinkham, of Montclair, N. J., led an American contingent of sixty men through Paris streets the other day, bearing the American flag before them, the city went wild. They were the first detachment of the newly created munitions transport branch of the American ambulance corps.

JUNIOR PLAY A SUCCESS

The Junior Class Play "What Happened to Jones" was given last evening in the auditorium of the new High School before a large and appreciative audience under the direction of Miss Maud Latham, teacher of English.

The play, "What Happened to Jones" and the circumstances were perplexing and also clever although all was straightened out in the end. Humor and wit were the predominating features. Each character was eminently fitted to the part to which he or she had been assigned and each one displayed exceptional talent and ability. Much credit and praise is due their instructor, Miss Maud Latham and the participants in the play.

SLIGHT AUTO SMASHUP

The jitney and an automobile driven by Ashley Woolbridge of Woodland collided at the lower end of Daisy street this morning and, while the rear end of the jitney and the front end of the auto were smashed up, some of the drivers and other occupants of the vehicles escaped injury.

The accident occurred at 7:45 o'clock in front of the home of Joseph Yanarro, just beyond the borough line. Driver Poole was turning his jitney and backed right into the automobile which was being driven into town from Woodland by Mr. Woolbridge.

CAPT. AYERS WILL TALK AT "Y"

Capt. Ayers, Company L, 18th Regiment, N. G. P. will talk to the members of the Clearfield Boy Patriots, Monday evening at 7:30 o'clock. All the boys are urged to be present as Capt. Ayers will have something good to tell them.

WILL RAISE A FLAG

A sixty foot flag pole has been erected at the E. R. & P. station at Market street and a handsome American flag 12x20 feet in size will be flying to the breeze therefrom Monday morning.

Conscription Act Now A Law Roosevelt Division Not Wanted June 5th Made Registration Day

The war department decided last Friday a week ago to send General Pershing and a division of approximately 25,000 men to France and The Progress has been in possession of the information since that day. However, in the interest of safety to our government, The Progress in common with other newspapers refrained from publishing the information until the plans were fully matured. When the French Commission landed on American soil we were in possession of the information but for the same reason no paper published the information until two days later in order that they might safely make their journey to Washington. We cite these instances for two reasons. First as an illustration that The Progress is getting the news at first hand and second that no censorship is required to have the newspapers fully cooperate with the government in the furtherance of war preparations.

Banks Will Supply Seed Potatoes Soon

Those Desiring Same Must Apply In Writing to Any Local Bank

The people of Clearfield and vicinity will be enabled to secure a limited supply of seed potatoes early next week, thanks to the efforts of the Clearfield Bankers' Association.

When the shortage in seed potatoes was brought to the notice of the Clearfield banks they got busy and through their association immediately attempted to secure a supply sufficient to cover the local demand. It proved to be an arduous task, however, as seed potatoes appear to be even scarcer than the proverbial hen's teeth. It was expected that at least one car load could be secured, but this was found to be impossible and the banks have been able to secure only 260 bushels of the prized seed.

These potatoes will arrive in Clearfield some day next week and all who desire to secure a portion of same should make application to either the County National, Clearfield National or Clearfield Trust Company at once and when the seed arrives the same will be apportioned to the different applicants in the quantities desired or as near to that amount as the supply and demand will make possible.

Remember that all who want share of these seed potatoes should make application to either of the three local banks at once and same will be filed and filled just as soon as the potatoes arrive. The price for same will be fixed at about \$3.00 per bushel.

REV. McCURDY WILL PREACH

Rev. John P. McCurdy will preach at both the morning and evening services in the Baptist church tomorrow.

Gen. "Black Jack" Pershing Will Command 25,000 Regular Army Troops In France Within Short Time

NATIONAL GUARD FOR FEDERAL SERVICE

President Wilson last night signed the army bill under which, with other measures, an army of 1,000,000 trained men will be sent to the front in France in a year.

In a formal statement Mr. Wilson rejected the Roosevelt division and gave his reasons.

Soon after this the President announced that he had ordered a division of 25,000 regulars to go to the French front as soon as possible. Major General John J. Pershing will command. General Pershing and his staff will precede his forces to the other side.

Mr. Wilson also issued a proclamation fixing June 5 as the day on which 10,200,000 men of the United States between the ages of 21 and 31 must register for the federal service. An army of 500,000 will be selected from this number immediately for training.

The entire national guard will be mustered into the federal service by August 5. The Pennsylvania militiamen will be ordered out on July 15 and sent south for a month or six weeks of intensive training after which they will be sent to France, probably in September.

Washington, D. C., May 18 — An ideal soldier, in the opinion of every man with whom he has come in contact during his long and brilliant career in the United States army, is Major General John J. Pershing, whom rumor says is most likely to have the immeasurable good fortune to be selected as commander of the first American army to be sent to France.

Ever since he came out of West Point in 1886 as a senior cadet captain the highest honor there, General Pershing has been living and fighting battles that fit him preeminently for the highest honors in the service. He was ten years in the southwest, fighting Geronimo and his Apaches. He was in the Spanish war with a negro regiment, and was called by his colonel the bravest and coolest man under fire he had ever seen, and he accomplished the extraordinarily difficult task of subjugating the Moros in the Philippines.

It was for all these things probably but chiefly for his work in the Philippines, that President Roosevelt, in 1906 promoted Captain Pershing to the rank of Brigadier-General, jumping him over the heads of 362 other officers—the record jump in the history of the army.

General Pershing is fifty-seven years old and a native of Missouri. After leaving West Point academy he entered the cavalry service, and in that arm he has done much of his most brilliant and enduring work. During his service in the Philippines he had to undergo tests, military and administrative, that proved him a superior officer. For his distinguished services in his fights against the Moros in the Lake Hano country he was singled out for praise by the President in one of his messages to congress. There, his senior officer being incapacitated, the command of a battalion devolved upon him. Captain Pershing was away from civilization and almost cut off from communication with the outside world. For seven months he kept open his base of operations, supplied his own subsistence and, with his men fought every day and part of the night. He started at the lower end of the lake and fought clear around its circumference, exterminating hostile natives or making peace with their chiefs.

General Mac Arthur, then in command of the Philippines, recommended him for promotion to brigadier-general as the only recognition commensurate with his actual services. Under the law President Roosevelt could not have bestowed the rank of colonel upon Captain Pershing, so the President gave him the record promotion.

When the army forces were stationed on the Mexican border by President Taft, General Pershing was immediately ordered from San Francisco to the front, and when, following the attack on Columbus, N. M., by Villa, General Pershing was assigned to the task.

In 1905 General Pershing was married to the daughter of United States Senator Frances E. Warren of Wyoming. On August 27, 1915, Mrs. Pershing and three of their little children were burned to death in the fire at the Presidio in San Francisco.

The selection of General Pershing to command the first American army ever to set foot on the soil of Europe would please his country, for he is a favorite with those who know him, and also with those who have only newspapers and periodicals as informants. His whole record stamps him as a soldier well qualified to carry out any military task to which he may be assigned. Moreover, there is a combination of efficiency and picturesqueness about his mode of working that pleases.

Big Coal Operation Near Borough Limits

Boyer Brothers Will Open Mines Near Borough Line

A deal was closed yesterday which will mean the developing of a large coal territory immediately adjacent to Clearfield, which has long lain dormant or idle, with the exception of a few country mines, largely because little if any effort was made by the owners to get an opening through to the railroad for the thousands of acres of finest coal underlying a block of hundreds of acres in this region.

The deal we have reference to was that consummated by W. M. and John Boyce who purchased the old Humphrey farm from M. O. Watts and the G. G. Irwin farm immediately adjoining. These farms besides being most advantageously located right on the edge of Clearfield borough are also underlain with fine veins of the very best coal to be found in this region, and it is the intention of Boyce Brothers to begin the operation of this coal on a large scale.

The principal body of coal is under the Irwin farm, but in order to properly mine and remove this coal it was necessary to have an opening on the adjoining land hence the purchase of the Humphrey place. In addition to the removal of the coal from under the 115 acres of this purchase this operation will be means of getting at and opening the large body of coal generally owned by Dr. S. C. Stewart, R. H. Thompson and other Clearfield people and will mean an operation of large proportions before very long.

"The Boyce coal will be operated at once and if present plans mature we are informed a branch or spur of narrow gauge railroad will be built in connection with the Whitmer Steel lumber road and the coal hauled to the E. R. & P. siding near the Patterson Brick Works.

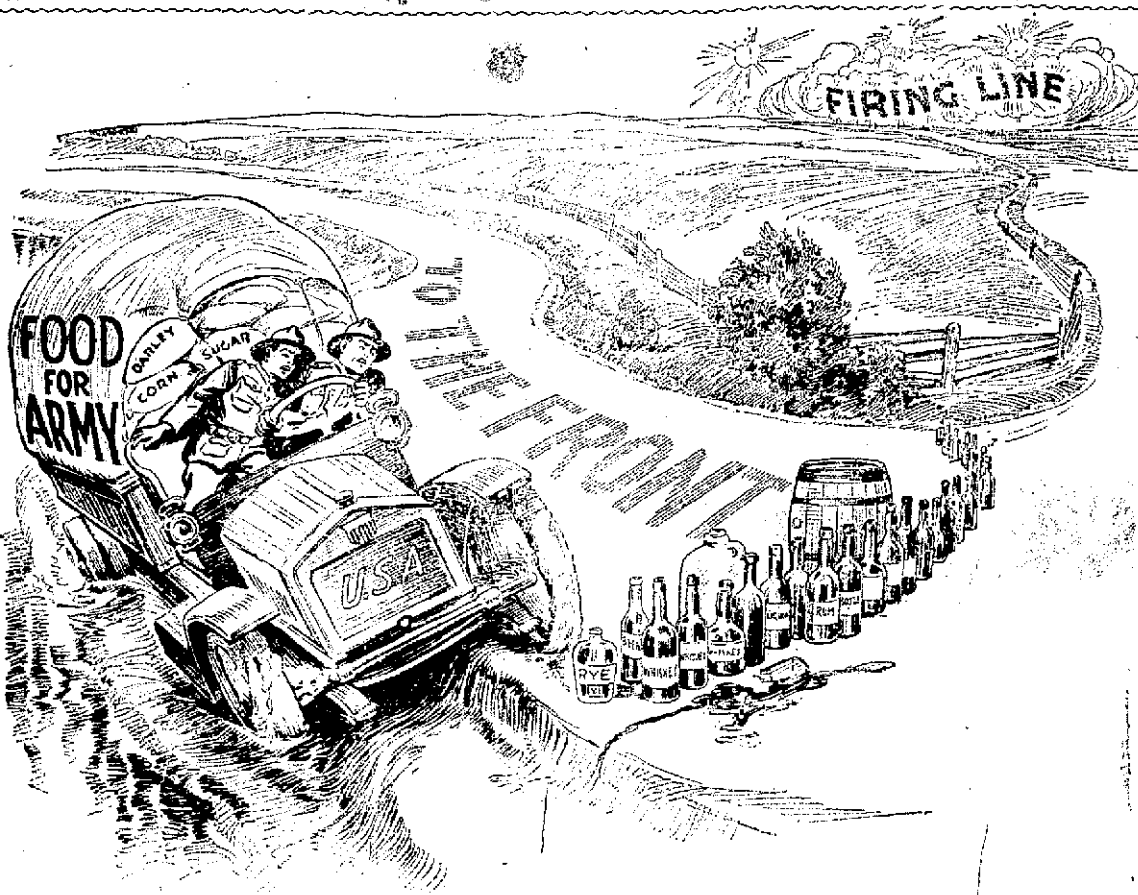

In addition to the removal of the coal Boyce Brothers propose to farm the surface of both farms and as the Irwin farm especially is one of the best in this section they will no doubt garner bumper crops as well.

GOVERNOR TO FIX FOR DRAFT

Call Sheriffs and Mayors to Help Him Lay Plans

Harrisburg, May 18.—Governor Brumbaugh today announced that he would call the Sheriffs of all counties of the state and the Mayors of all cities in Pennsylvania having over 10,000 population for a conference next Tuesday afternoon at 1 o'clock, to discuss plans for registration under the selective draft act.

"This meeting will be held at the Capitol, so that we can have a conference and detailed in the United States methods to be used in the selection for conscription," said the governor.

"Confound the Bottles and Whoever Put 'em there!"

FOLLOW SPUDS WITH BEANS

Planting beans as a second crop to follow early potatoes is the plan suggested to Governor Harding by J. K. Norris who has followed the practice for University Park, Mahaska county. Mr. Norris has followed the practice for years on his farm and vouches for its success.

"I raise a bean crop on my potato ground every year," he writes. "I tell you when I was in the war of the rebellion a good dish of beans helped as much as any food we could get. The last of June is the time to plant them, after the fly is gone that stings them and causes them to become wormy."

The experiment truck crops man at Iowa State college suggests that even if beans are not planted as a second crop, they could not be put in the ground sooner than June 7. "Plant pea or soup beans, as they mature better in Iowa. Select a light, sandy and not a rich soil. Newly turned sod ground is good. Break the ground soon and keep it harrowed to kill the weeds. Plant 2 pecks to the acre. If hand planted, place them in rows 28 inches apart, 11 1/2 inches apart in the row and 2 inches deep. A new circular on bean growing is now available from the agricultural extension department, Ames, Iowa.

WILSON'S DISPOSAL OF T. R.

The spectacle of an ex-President of the United States being refused permission to raise an army and thereby "do his bit" towards the protection of the nation he has served so long and well is not a little humiliating. In the Spanish-American war most anybody who could muster a Corporal's guard was given shoulder straps. Just why Theodore Roosevelt was held down was not explained until a chain of circumstances had been forged which changed conditions in such a manner that even Teddy's most staunch supporters must today admit that the action taken by President Wilson last night was right.

Under existing conditions, President Wilson is justified in his statement that "to accept the offer of Roosevelt would defeat the very purpose of selective service legislation," but we cannot wholly indorse the action of the President for the reason that there was a time, and that only three or four weeks ago, when the government could have accepted T. R.'s offer without any harm to conscription laws but rather a decided impetus to volunteer recruiting. The administration has been very busy so shaping their program that Mr. Roosevelt's offer could be discounted and disregarded in the interest of the administration plan for selective conscription.

The President's action last night was the right one considering the conscription law but his action was the outgrowth of carefully laid Democratic administration plans for the discarding of the greatest exponent of red blooded Americanism.

IN MEMORIAM

Resolution of respect of Mt. Joy Grange No. 684 on the death of Brother Charles Owens, who died on May 1st, 1917.

Whereas, God in His wise Providence has again so soon entered our Grange and called from our midst our Brother Charles Owens, Therefore, be it,

Resolved, That we bow in humble submission to Him who doeth all things well, and that we tender our heartfelt sympathies to the bereaved parents and family and commend them to the Heavenly Father.

Resolved, That our charter be draped in mourning for thirty days, and that a copy be entered on the minutes of the Grange and a copy be sent to

the family, one to the Grange News and one to each of the county papers.

WILL CELEBRATE 90th BIRTHDAY

John H. Martin left today for Bellefonte where he will visit his mother, Mrs. Elizabeth Martin who will celebrate the ninetieth anniversary of her birth tomorrow. Mrs. Martin is a remarkable old lady and is just as hale and hearty now as in former years when she was a Clearfield resident.

Learn to be Thrifty

We Americans are the most extravagant people in the world, due in large part to the natural richness of this country.

Under present conditions it is essential for us to be thrifty. It is hard at first. It means cutting out unnecessary expenses. It means learning to say "no" to the appeal of extravagance. But like all habits, Thrift soon becomes second nature.

Thrift is not miserliness. It provides for all proper expenses. It lays aside money for education, for travel, for the finer things of life. It teaches us how to spend as well as save.

Let us advise you on learning the Thrift Habit.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat also take glass of Salts before eating breakfast

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water, also get from any pharmacy four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

ON THE SCREEN

"THE AMERICANO"

The Tent Monday Night

Douglas Fairbanks is said to have in "The Americano" a play of strong or dramatic value than any in which he has yet appeared on the Triangle program. It has to do with the ad-

ventures of a young American mining engineer in a South American republic which has just been upset by a revolution.

Alma Reuben appears as leading woman for Douglas Fairbanks in the new Triangle feature, "The Americano." Miss Reuben appeared in support of Fairbanks in "The Half Breed" and has also played opposite William S. Hart. She is of the Spanish type and particularly fitted to the role she has in the new piece.

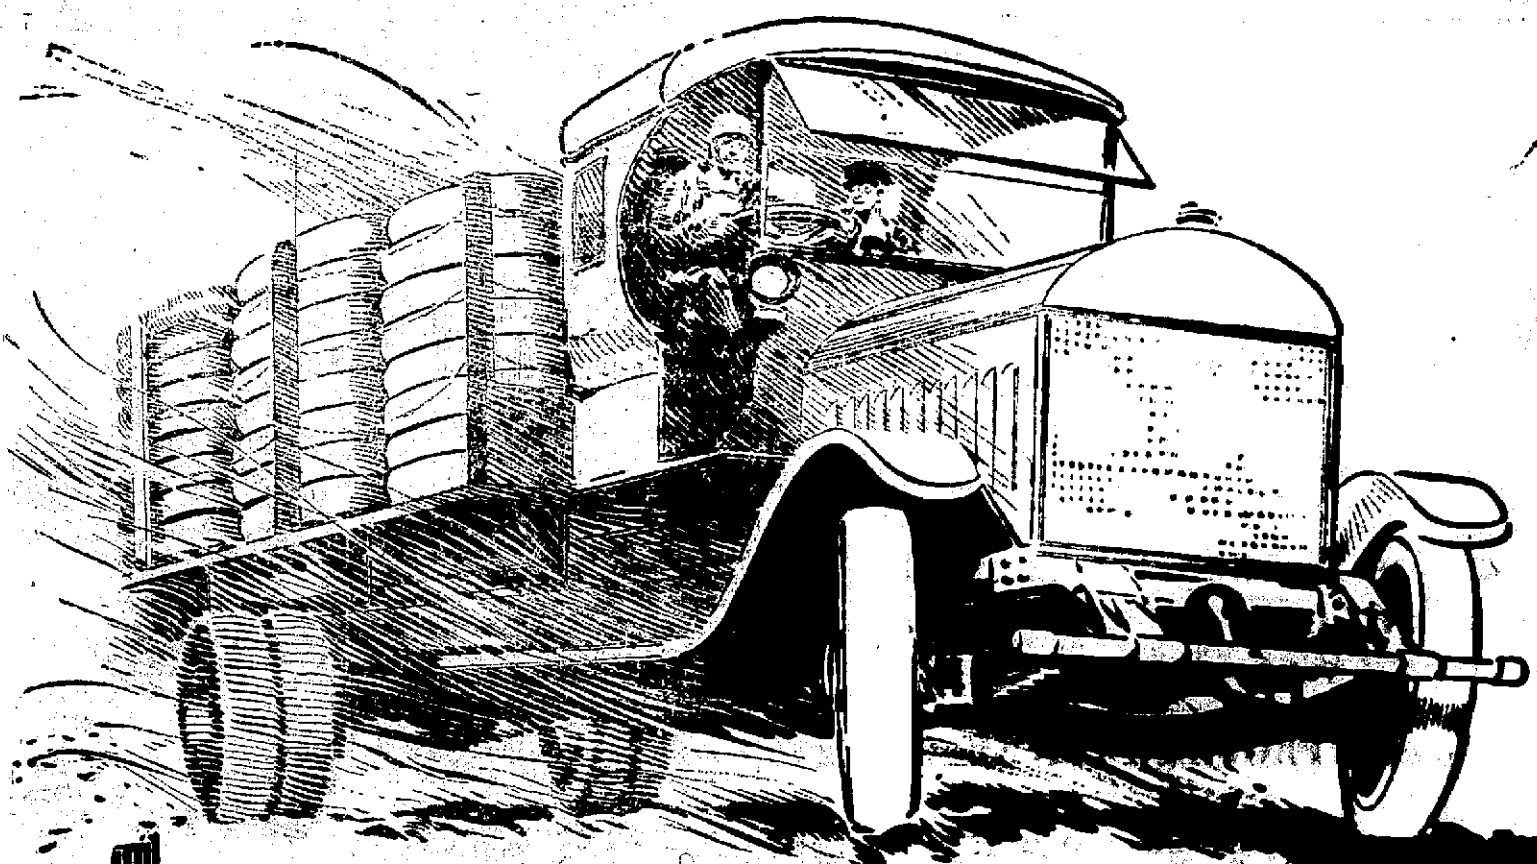

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glass of hot water before breakfast to wash out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best day in and day out, just try inside bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

JUST IN!

Big New Shipment of Ajax Tires

WE'VE just received a record shipment of Ajax Registered Tires in fresh and fine condition—the best goods on the market. This shipment—made at a time when there is an expected shortage of tires—demonstrates how we protect our buyers' interests.

We are abundantly able to take care of your requirements. Why not come in and learn for yourself more about the Ajax Quality Proposition?

Every Ajax Tire is registered in the individual tire owner's name at the factory—a double insurance of service that means saving.

We are proud to handle Ajax—glad to add our service insurance to the maker's own. Our latch-string is out.

SUNDAY SCHOOL.

Lesson VIII.—Second Quarter,
For May 20, 1917.

THE INTERNATIONAL SERIES.

Text of the Lesson, Isa. xxviii, 1-13.
Memory Verse, 7—Golden Text, 1
Cor. 9:25—Commentary Prepared by
Rev. D. M. Stearns

The title of this lesson is "The Importance of Self Control," and that fits well into the last lesson, for we cannot be faithful unless Spirit controlled. According to the Golden Text and its context, the self life must be persistently reckoned dead if we would win the incorruptible crown. Paul in that passage had no thought or reference to the loss of his soul, but was speaking only of service, which he knew might be rejected or disapproved, and he suffered loss, according to 1 Cor. iii, 14, 15.

This is called a temperance lesson. Suppose because of its references to drunkards and strong drink (verses 1, 2, 7, 8), but the whole chapter and the context refer to those who scorn the word of the Lord and take refuge in lies (verses 14, 15). No doubt the priest and prophet, as well as the people, were given to wine and strong drink and thus were out of the right way, drinking themselves drunk like those in 1 Kings xvi, 9; xx, 13. The filthiness and bentness of actual drunkards are seen in lesson verse 8, and those who continue such cannot enter the Kingdom of heaven, but there are forgiveness and salvation for all kinds of sinners if they will only turn to the Lord, according to 1 Cor. vi, 9-11. In the next chapter (xxix, 9) there are a drunkenness and a staggering with which wine and strong drink had nothing to do. It was the religious, scholarly kind so prevalent today, a sleep from the Lord because they turned away from His word and said that they could not understand it. He called it drawing near to Him with their mouth only, while their heart was far from Him, and they were giving heed to precepts of men and not to His precepts (xxix, 10-13). They said to the seers, "See not," and to the prophets: "Prophecy not unto us right things; speak unto us smooth things. Prophecy deceits. . . . Censure the Holy One of Israel to cease from before us" (Isa. xxx, 8-11). According to Ezek. xxxiii, 31, they hear, but do not; with their mouth they show much love, but their heart goeth after their covetousness. It was just the same when our Lord was on earth, for He quoted from Isaiah and said, "In vain do they worship Me, teaching for doctrines the commandments of men (Matt. xx, 8-9). There is only one true foundation, and that is the tried stone, the precious cornerstone, the same foundation of xxviii, 16, spoken of so plainly in 1 Cor. iii, 11. All else is lies and from the father of lies, the devil, but all shall be swept away by the judgments (verses 17, 18). There is no rest for weary souls but in Him who said, "Come unto me all ye that labor and are heavy laden, and I will give you rest" (Matt. xi, 28). But He still has to say, "Ye will not come unto me" (John v, 40). So in our lesson, verse 12, "This is the rest wherewith ye may cause the weary to rest, and this is the refreshing, yet they would not hear." Again in chapter xxx, 15, "In returning and rest shall ye be saved; in quietness and in confidence shall be your strength, and ye would not." The failure is ever on our part, and He has to say, "I would; . . . ye would not" (Matt. xxiii, 37). These scornful men mocked the Lord's messengers, saying: Does He think that we are children just weaned, that he must be ever repeating precept upon precept, line upon line, not knowing that there is no other way for such slow people as we are? But they were proud and rebellious (verses 9-14). They mocked the messengers of God and despised His words and misused His prophets until the wrath of the Lord arose against His people, till there was no remedy (11 Chron. xxxvi, 15, 16). There was a restoration from Babylon after the seventy years' captivity, but there is to be a greater restoration, which is ever drawing nearer, after which they shall never be scattered again nor see evil any more (Isa. xl, 10-12; Jer. xxxi, 38-40; Zeph. iii, 15). Then shall Israel blossom and bud and fill the face of the earth with fruit, and the earth shall be filled with the knowledge of the Lord, and a king shall reign in righteousness and the work of righteousness be quietness and assurance forever (Isa. xxxvii, 6; xl, 9; xxxviii, 1-17).

The father of lies and all his deceitful ones shall go to their own place, and there shall be one king over all the earth (Rev. xix, 20; xx, 10; Matt. xxv, 41; Zech. xiv, 9). Until that time only the meek shall increase their joy in the Lord, and the poor among men shall rejoice in the Holy One of Israel (xxix, 19). As in Matt. v, 3, 5, "Blessed are the poor in spirit, for theirs is the Kingdom of heaven; blessed are the meek, for they shall inherit the earth," also in Matt. xi, 20, "Take ye yoke upon you and learn of me, for I am meek and lowly in heart, and ye shall find rest unto your souls." All other beauty but His is a fading flower, for all flesh is grass, and all the goodliness thereof is as the flower of the field. The grass withereth, the flower fadeth, but the word of our God shall stand forever (verses 1-4; chap. xl, 6-8). There has always been a remnant, a little flock, to whom the Lord has been their all in all—the Abels, the Noahs, the Noas.

Mr. and Mrs. H. J. Flegel left today for Shinglehouse where they will spend a few days with Mrs. Flegel's mother, Mrs. Cole.

CURWENSVILLE

Miss Agnes Gardlock, daughter of Mr. and Mrs. Cris Gardlock, of South Side, who has been in Turkey for several months, is expected home in a few weeks.

Prof. J. E. Walurath left last evening for Buffalo, N. Y. Mr. Walurath intends to enter some branch of the war service. He will likely enlist as a musician in the navy.

Anyone wanting a lot to plant, size 50 by 180, address box 827 for particulars.

The annual S. T. I. prizes awarded by the W. C. T. U. were given at the Patton school yesterday afternoon to pupils of the High School and the sixth to eighth grades inclusive. The High School prizes were: first, \$10 gold awarded to Elsie Throne, second \$5.00 gold to Elizabeth Duff. The prizes in the grades were in the eighth first, \$5.00 in gold to Margaret Sharp, second \$2.50 in gold to Helen Kephart, honorable mention to Edwina and Florence Smith; Miss Mackie's seventh grade, first, a gold medal to Ray LaPort, second, \$2.00 to Grace Rippes, honorable mention to Jessie Cook; Miss Hoy's seventh grade, \$5.00 gold to George Wrigley, second \$2.00 to Gladys Draucker, honorable mention of Frank Wilson; sixth grade, first prize, \$3.50 to Marjory Wall, second \$2.50 gold to Sidney Korb, honorable mention of Mildred Korb.

Ira Knepp, who was a delegate to the I. O. O. F. grand lodge which met at York, Pa., this week, returned home last evening.

Mrs. Samuel Norris is visiting in DuBois.

Mrs. W. J. Twigg, of Irwin Hill, is visiting in Bellwood for a few days.

There was a dance in the Moose hall Thursday evening.

Mrs. Frank Hale, of DuBois, spent Friday in town with friends.

Miss Estella Anderson, of Mahaffey is visiting Miss Emma Read on Ridge avenue.

Mrs. John Murray and two children left yesterday for Philadelphia where they will spend some time with Mrs. Charles Potticord, a sister of Mrs. Murray who is seriously ill.

Mrs. W. E. Hudson is visiting her sister, Mrs. B. A. Shearer, at Olean, N. Y.

James Stover has returned home from Philadelphia.

The Knights' of Pythias at their meeting Thursday evening unanimously passed a resolution to keep all members who have enlisted in good standing during service rendered.

Regular preaching service in the Baptist church Sunday morning and evening. Baptism at the river near the Pee Wee's Nest at 3 P. M.

A young woman in Brighton, England, claims to have the most remarkable necklace in the world. It consists of a dozen small fragments of shell, set in gold, taken from her fiancé, who was wounded in the battle of Ypres, and the pendant is a bullet, in which a diamond is set, which was extracted from her brother's chest.

EASY TO DARKEN
YOUR GRAY HAIRYou can bring Back Color and Lustre
with Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture at home, though, is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and lustrous.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite, and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

Professional dog trainers declare that the poodle is the cleverest member of the canine kingdom.

PAY DAY

What Does it Mean
To You?

For 17 years the International Correspondence Schools have been making pay day mean more to men who are ambitious and who want to advance themselves in the world.

No matter what your circumstances are we can qualify you for a better position. Can you afford to neglect this opportunity? Sign the coupon tonight.

BUSY TIMES ON THE GREAT LAKES

Navigation on the Great Lakes is now open, and the familiar sound of steamboat whistles is indeed a welcome one to many, for not only do the steamers afford relief from freight congestion but also furnish a most comfortable mode of travel for passengers.

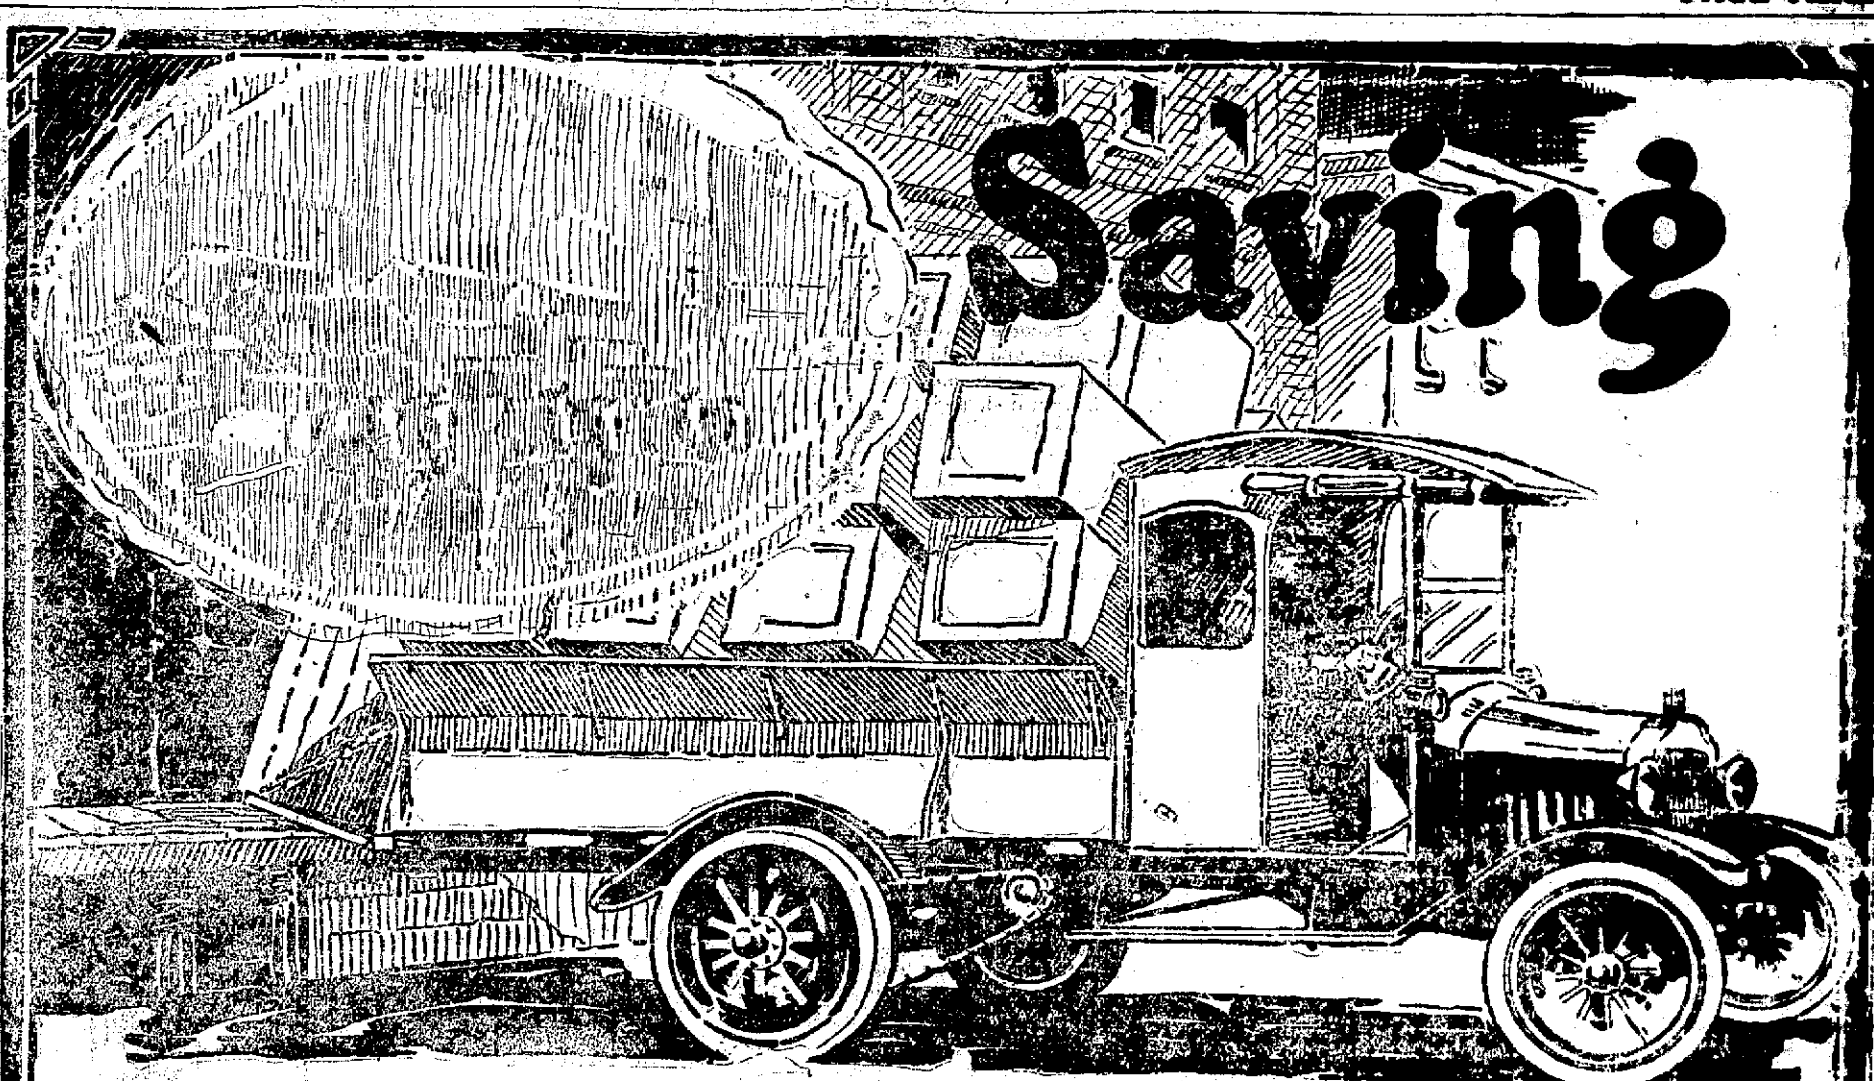

Officials of the C & B Lines which operate the Great Ship "Seeadler" and steamers "City of Buffalo" and "City of Erie" daily between Cleveland and Buffalo, predict that this season will surpass all others in volume of passenger and freight traffic. Never has business started with such a rush which surely reflects the general prosperous condition of the country.

Vacation trips which afford change from the every day scenes are regarded as essential by the American people, and thousands are now turning to the Great Lakes for the alluring trips by water.

Seven hundred and fifty millions dollars is the estimated cost of all the sand-bags used by the British in the present war.

CHICHESTER'S PILLS

CHICHESTER'S PILLS

When will
You Cut Your
Equipment Costs
75%
and Use
Smith
Form-a-Trucks?

Smith
Form-a-Truck

\$350

C. O. B. Chicago

Horse-drawn delivery and hauling saddles you with an excess cost for equipment that can easily amount to 75% over your entire investment.

A Money Saver

Smith Form-a-Truck eliminates all unnecessary investment in delivery and hauling equipment. It easily hauls twice the tonnage hauled by horses over three times the area and in the same time. This is real hauling and delivery efficiency—time saving, money earning in every line of business.

Loaders' & Drivers' Wages

Where you now use from three to four horse-drawn teams, one Smith Form-a-Truck will easily do the work. Loaders' and drivers' wages are saved. The men on the loading platform work steadily and earn money for you instead of wasting it waiting for slow moving teams to get back.

Horses Must Rest

Your excessively large, horse-drawn equipment costs you money for upkeep on working and non-working days. Stabling, feed, veterinary bills go on all the time—and for steady service all day you must have extra equipment to give the horses a rest.

Expense Stops

Smith Form-a-Truck costs nothing to maintain when it is not working. Stop the motor and the expense stops until you start it up again. There is no non-production expense. And the actual cost

of maintenance when Smith Form-a-Truck is running is not only far less than for horses, but less than for any other form of hauling or delivery.

A Big Guarantee

And you can put Smith Form-a-Truck at work in a few hours. Simply attach it to any Ford, Maxwell, Buick, Chevrolet, Dodge Bros., or Overland power plant. The truck construction is permanent—fully guaranteed—the mechanical equal of the highest priced truck you can buy.

Rear Axle Carries Load

You know the service value, the economy standard of the famous power plants with which Smith Form-a-Truck can be used. And the power plant only pulls the load. The Smith Form-a-Truck carries it—90% of the entire load rests on the sturdy Smith Form-a-Truck rear axle.

Be One of 30,000

Don't put up with wasteful expense in your hauling or delivery for another day. Get your order in for Smith Form-a-Truck now. Be one of the 30,000 sure of getting delivery this year. Join the 18,000 present satisfied users.

If you have any doubt, ask for a demonstration. It will be a revelation to you to see the actual money saving Smith Form-a-Truck will make for you.

DEAR ENEMY

By Jean Webster

Author of "Daddy-Long-Legs"

Like "Daddy-Long-Legs" this is a story told in letters—equally as appealing and unforgettable.

How Sally McBride is persuaded by her good friends, Jervis and Judy Pendleton to assume charge of an orphan asylum and how she succeeds is all told in her delightful letters to the Pendletons, to Gordon Hallock and to Dr. Rablin Robbin MacRae, the "Dear Enemy" of the title.

This is an exceptional opportunity for those who desired this quaint little book when it first appeared at the copyrighted price. We are now selling it at

THE SMITH MOTOR TRUCK

In the exhibits of the Smith Corporation at the recent Used Car Show in Chicago, visitors were able to see in actual form that which A. D. Smith visualized in his mind five years ago in a small shop in Seattle. He commenced his activities with the aid of a few tools and a second hand Ford. The results was a crude appearing chassis which proved its ability to carry a ton load, which satisfied Mr. Smith that he had opened a wide field. The standardized attachment which was shown at the exhibit is sufficient proof of the practicability of Mr. Smith's conception, and marks the tremendous strides made in the perfecting of the attachment since its inauspicious beginning. From its start in the small one-room building in Seattle, the industry has grown to such an extent that a mammoth plant at Clearing, Illinois, has been constructed. Thousands are employed there and already there have been several additions in order to keep pace with the unprecedented growth of the Smith Motor Truck Corporation.

From one desk in the front of Seattle establishment, the clerical phase of the business has developed to such an extent that a six story building is now necessary to accommodate it. The new home of the rapidly growing concern is on Michigan Avenue at Sixteenth street, in the six story building formerly occupied by the Goodyear people.

The instruments on an aeroplane usually include an altimeter, for indicating the height; clock, compass; revolution indicator, indicating the air speed of the aeroplane, and petrol and oil gauges, indicating the amount of fuel in the tanks.

A bomb dropped from a Zeppelin at a height of 8,000 feet, while the airship is traveling at full speed, would strike the ground at not less than three eighths of a mile in front of the spot over which the Zeppelin was at that moment traveling.

CHICAGO BANDITS AGAIN

Chicago, May 19.—Two men were shot and two others badly beaten by five automobile bandits today who held up three men at the Racine street exit of the Metropolitan Elevated and escaped with the \$7,000 pay roll of the Steine Garter Company.

3:00 Center Hill
7:30 Wallaceton.
Quarterly conference at Wallaceton on Monday, May 21 at 2:30 p. m.

PAIGE

The Most Beautiful Car in America

YOU may be one of the thousands of people who have planned to buy a Paige Linwood "Six-39" this spring. If so, let us suggest that you place your order immediately.

There is a tremendous demand for these beautiful five-passenger models. Orders are pouring into the factory from all sections of the country, and it is a foregone conclusion that our "Linwood" production will fall far short of the demand.

Then, also, remember that the cost of manufacturing materials is steadily advancing. Each day it becomes more difficult—and consequently more expensive—to secure the steel, aluminum, copper and brass that are found in a car like the "Linwood."

Right now, you can buy one of these cars for \$1175. If you delay the matter too long, you may have to pay considerably more. Or, as we said in the beginning, it may be impossible to secure early delivery on a Linwood at any price.

Stratford	"Six-51" seven-passenger, \$1495 f. o. b. Detroit
Fairfield	"Six-46" seven-passenger, \$1375 f. o. b. Detroit
Linwood	"Six-39" five-passenger, \$1175 f. o. b. Detroit
Brooklands	"Six-51" four-passenger, \$1695 f. o. b. Detroit
Dartmoor	"Six-39" 2 or 3-passenger, \$1175 f. o. b. Detroit
Limousine	"Six-51" seven-passenger, \$2750 f. o. b. Detroit
Sedan	"Six-51" seven-passenger, \$2300 f. o. b. Detroit
Sedan	"Six-39" five-passenger, \$1775 f. o. b. Detroit
Town Car	"Six-51" seven-passenger, \$2750 f. o. b. Detroit
